About the Enhancing Local Government (ELG) Interactive CD Series

The Enhancing Local Government project is a series of distance learning educational modules for municipal officials. The ELG project was undertaken by the Michigan Municipal League Foundation with the express purpose of providing high-impact education and information to public officials on a broad range of topics and issues they face in day-to-day governance of municipalities. This is consistent with the educational goals of the League and of the Elected Officials Academy; which is a part of the League's general education effort.

About the Michigan Municipal League

The Michigan Municipal League is the Michigan association of cities and villages. The League is a nonpartisan organization working through cooperative effort to strengthen the quality of municipal government and administration by providing technical assistance and information to local officials regarding municipal issues; improving the training and education of these officials; preserving the home rule philosophy of municipal government, and creating a greater public understanding of municipal responsibilities, governance and administration.
